

Vercel

AI Gateway, one API key for every model provider

WHAT YOU GET

100 USD in Vercel AI Gateway credits

Call OpenAI, Anthropic, Google and more through one endpoint with unified billing and fallbacks.

CREDIT CODE, SHARED

ACCEHACK-S52W-NRD8

<https://credits.vercel.sh>

HOW TO REDEEM

- 1 Log in or sign up at **vercel.com**. Find your **Team ID** under Team Settings, General.
- 2 Go to **credits.vercel.sh**, enter your email, your Team ID and the code above, then submit.
- 3 Your request may show as **submitted** for a while. Vercel approves requests during the day, no action needed from you.
- 4 In the Vercel dashboard open the **AI Gateway** tab, create an API key and start calling models. Your credits appear there.

GOOD TO KNOW

- If your request is still pending after an hour, tell the BuilderBase desk and we ping Vercel.
- AI Gateway docs and model list: **vercel.com/docs/ai-gateway**.
- One redemption per team. If you hack as a team, one Team ID is enough, or each member redeems on their own personal team.

FOUNDERS PACK, FOR THE WINNING TEAM

12,000 USD in AI Gateway credits for the grand prize winner. Vercel reaches out to the team directly after judging.
